

CLASS 4

- Lead Right/Left:** Designated couple moves forward along a 90° arc to face the couple (or wall) to their right (or left).
- Veer Right/Left:** Designated couple moves right or left and forward. There is no change of direction.
- Right & Left Thru:** **Pass thru** by pulling by with the right hand of the person in front of you and taking the left hand of your partner to finish with a **courtesy turn** (implied in the call but not mentioned).
- Circulate:** You will run across circulates time and again as you move through square dancing. To circulate simply means to move to the next position along a path. The only hard part is seeing the path, because the path changes depending upon the formation.
- Couples:** From Two Faced Lines, you have to imagine a chariot race. You're moving around the oval. If you're a trailer facing someone's back, simply walk into their shoes. If you're a leader facing out, your next position is beside you and you'll have to wheel into their spots. If you start as an end, you'll stay an end. Centers stay centers. We also tried Boys Circulate and Girls Circulate.

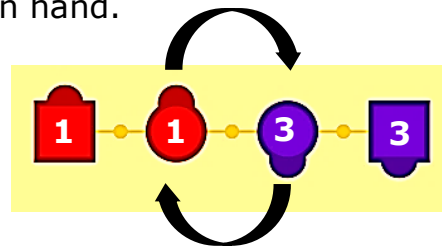

Circulate (continued):

- Boys:** Just the boys circulate. If they are ends, they stay ends.
- Girls:** Just the girls circulate. If they are centers, they stay centers.
- Ends:** Just the ends circulate. They remain ends.
- Centers:** Just the centers circulate. They remain centers.

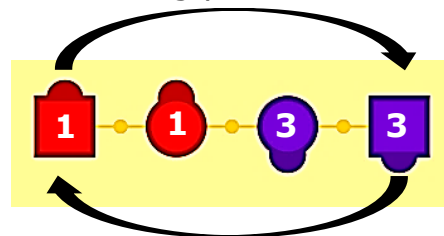

Centers Trade:

From a Two Faced Line, typically there will be two people of the same gender holding hands in the center. Those two people trade with each other by turning halfway with the common hand.

Ends Trade:

From a Two Faced Line, the ends simply walk to the other end of the line, trading places with each other.

Chain Down the Line:

A Ladies Chain from a Two Faced Line. The girls in the center turn half by their right hand and offer the left to the boy for a Courtesy Turn.
